

ACTIVITIES PERFORMED WITHIN THE MUSEUM

In parallel with the exhibiting activity, our museum also hosts educational activities for children (both preschool and high school children), experts in museum/ oil & gas field or pensioners.

We are proud of the collaboration with our partners which led to unforgettable experiences, to the initiation of some new projects or to opening new horizons for the young people that discover the oil & gas history.

We are open for new collaborations that aim at emphasizing the value of museum patrimony and the expertise of our colleagues.

We are looking forward to seeing you!

CHILDREN AT THE MUSEUM

- ❖ **“Know more, be better!” – tours/ activities on request**
- ❖ **“Stories at the museum” – Seminars for children**
- ❖ **“Lesson at the Museum” - Workshops in partnership with technical colleges**
- ❖ **Participation in OMV Petrom sustainability projects**

PROJECTS SUPPORTED BY THE NATIONAL NETWORK OF ROMANIAN MUSEUMS (RNMR)

- **The main objective of "URME de muzeu..."** Project was to promote museums and memorial houses of RNMR as specific cultural attractions in view of exploiting their existent touristic (historical, patrimony, cultural) values. Performing bilingual maps (Romanian - English) of museums and memorial houses belonging to RNMR of Bucharest and Romania, under classic and electronic format.
- The project **FOCUS ON THE VISITOR AND MUSEUM VISITORS** had as an objective to provide the knowledge and necessary tools to the Romanian museums for performing studies for the visitors.
- The project **SHOWMUZ- Museum and the art of entertainment**– the first program in Romania dedicated to the museum as unconventional space opened to entertainment- aiming at offering a common collaboration for two of the main cultural organization type: museum and theatre.
- The project **Museums go to museums**, a pilot initiative, with experimental character **Museums Meet Museums (MMM)** implemented at European level under NEMO umbrella (Networking of European Museum Organization) that RNMR is a part of. The general objective is the increase of museum employees' mobility and collection mobility, by stimulating and creating projects and common exhibitions between network members, as these themes represent priorities at European level.

STORYTELLING PROJECT: EACH OBJECT TELLS A STORY

A program that aims to emphasize museum patrimony by interactive presentations.

Hello, I am the blow out preventer, known as B.O.P.

I was built in U.S.A. By National Oilwell – Houston, I am 67 years old and I go by the name of Shaffer . I can tell you that “ my grandfather“ was born in Romania in 1912 under the name of “Tacit Valve” from which I inherit the ability to work under pressure. At a first glance I look like an alien tank, I’m rather fat, I have 4000 kg. And I am the only one left in Romania, as I know of. If you’ve met someone similar to me, please let me know, I would be thrilled to know my relatives.

By then, look me up in my location from the National Oil Museum of Ploiesti where I will tell you all about the bravery of my predecessors, true heroes that fought naturally flowing wells.

STRENGTHENING OF THE NATIONAL NETWORK OF ROMANIAN MUSEUMS AND ITS MEMBERS

- ❖ The Project *Strengthening of the National Network of Romanian Museums and its members*, aims at consolidating RNMR and at strengthening the organizational capacity of RNMR member museums.
- ❖ Two workshops designated to museum management people (**museum management**), respectively the personnel responsible with performing educational activities within the respective museum (**museum education**).
