# *Temporary Exhibition*

# EUROPEAN MUSEUM NIGHTS EXHIBITIONS

**European Museum Nights** is initiated by the Ministry of Culture and Communication in France from 2005, being celebrated by over 3.000 museums throughout Europe.

The manifestation has as purpose to stimulate the interest of the wide audience on the richness and diversity of the national and European cultural patrimony ensuring free access to museum collections.

Discovery and awareness regarding cultural values increasing access to culture by opening museum gates, represents already accomplished objectives, which can be quantified on a yearly basis by the larger number of visitors and participant institutions, that, cumulated, imprint to the event a community and European dimension thus exceeding the geographical and temporal boundaries.

Among the exhibitions organised by the museum:

- ❖ „ *Virgiliu Tacit, an outstanding representative of the Romanian Oil industry*”
- ❖ *“Tradition and trends in the oil world “*
- ❖ *“Centenary of Astra Romana society 1910-2010”*
- ❖ *“The beginning of mechanical drilling in Romania”*
- ❖ *“Introduction to oil geology”*
- ❖ *“1904 - Set up of Romanian-American company. Historical landmarks”*

# OILMAN'S DAY EXHIBITIONS

---

**8th of September** marks a reference date for the Romanian Oil. On the 100 years anniversary of the Romanian Oil industry, in 1957, it has been initially decided for 12 October to become the *Oilman's Day*, the first anniversary being one year later. Since 1990, all oilmen celebrate Oilman's Day on the 8<sup>o</sup> of September, on St. Mary's religious holiday.

**Among the exhibitions on this occasion:**

- ❖ "The Oilmen's world",
- ❖ "The Town of Buzau, oil history and tradition"
- ❖ "MORENI, traditional oil cradle"

By means of such exhibitions we honour those who started by means of rudimentary methods the fight with the "black gold" and are still doing it today with accomplishments at global level.
